

**1) Dr. Deborah Birx would hide COVID data.
See July 15, 2022 – Twitter Post:**

The most shocking confessions that Tucker unearthed in her book, "Silent Invasion: The Untold Story of the Trump Administration, COVID-19, and Preventing the Next Pandemic Before It's Too Late," is that she would 'hide' data that was being sent to states to guide their COVID responses."

2) Dr. Deborah Birx had an intent to deceive:

Tucker provided the passage in Dr. Birx's book that explained the process for writing reports. It directly implicates Birx in obfuscating data and misleading state officials.

"Our Saturday and Sunday report-writing routine soon became: write, submit, revise, hide, resubmit. Fortunately, this strategic sleigh-of-hand worked," Dr. Birx.

3) Dr. Deborah Birx would rig COVID-related mortality rates:

In a glaring example of hiding data fraud in the daylight, Dr. Birx actually admitted to the manner that the United States would rig COVID-related mortality rates to appear far worse than what they actually were.

"So, I think in this country, we've taken a very liberal approach to mortality," Birx said at an April 2020 press conference. "There are other countries that if you had a preexisting condition, and let's say, the virus called you to go to the ICU, and then have a heart or kidney problem, some countries are recording that as a heart issue or a kidney issue and not a COVID-19 death. Right now, we're still recording it. And we'll, I mean, the great thing about having forms that come in and a form that has the ability to mark it as COVID 19 infection. The intent is right now that those, if someone dies with COVID 19, we are counting that as a COVID 19 death."

4) Dr. Deborah Birx would alter data to maximize public alarm:

"The CDC, however, is yet to clarify a distinction between COVID-related and COVID-caused deaths. The COVID response was rigged to cause maximum public alarm and to push vaccinations at all costs. Dr. Birx's confessions support this conclusion beyond any doubt."
