**Intracellular Reverse Transcription of Pfizer BioNTech COVID-19 mRNA Vaccine BNT162b2 In Vitro in Human Liver Cell Line**

<https://www.truthforhealth.org/2022/04/intracellular-reverse-transcription-of-pfizer-biontech-covid-19-mrna-vaccine-bnt162b2-in-vitro-in-human-liver-cell-line/>

*"The outcomes of this study identify that the COVID-19 vaccine developed by Pfizer, does in fact, edit human DNA."*

**SARS-CoV-2 RNA reverse-transcribed and integrated into the human genome**

Whitehead Institute for Biomedical Research, Cambridge, MA, USA.

<https://pubmed.ncbi.nlm.nih.gov/33330870/> lines 26-29

*"We describe evidence that SARS-CoV-2 RNAs can be reverse transcribed in human cells by reverse transcriptase ... and can be integrated into the cell genome,"*

Red area is stained mRNA of SARS-CoV-2

Blue area is stained nucleus of cell

"Red dot" is evidence that SARS-CoV-2 mRNA can get into the cell nucleus and thereby replicate

*"This novel feature of SARS-CoV-2 infection may explain why patients can continue to produce viral RNA after recovery and suggests a new aspect of RNA virus replication."*

SUPREME COURT OF THE UNITED STATES

**ASSOCIATION FOR MOLECULAR PATHOLOGY ET AL.**

**v. MYRIAD GENETICS, INC., ET AL.**

CERTIORARI TO THE UNITED STATES COURT OF APPEALS FOR THE FEDERAL CIRCUIT

No. 12–398. Argued April 15, 2013—Decided June 13, 2013

*"It is also possible to create DNA synthetically through processes similarly well known in the field of genetics." pg 6*

*"Composite (c) DNA is patent-eligible because it is not naturally occurring." pg 4*

**Does this Supreme Court Ruling stipulate that human DNA that has been altered by the COVID-19 vaccines, establish that humans can now be claimed as patented property?**

**Yuval Noah Harari | A Klaus Schwab Advisor thinks so.**

**"We Can Hack Humans and Other Organisms."**
