

**The Hon. Pedrazzini asks the Government to use oxygen-ozone in all Italian hospitals.**

April 20, 2020 (Italy – Orbisphera.com)

"Oxygen ozone therapy is an instrument used for many years in Italy and recognized as antiviral. We therefore ask the Government that the treatment with ozone oxygen of patients affected by Covid-19 be implemented and made available in several public facilities".

This was said by Claudio Pedrazzini, the first MP who tested positive for Covid-19 and was cured of the coronavirus thanks to ozone therapy.

Pedrazzini said that "currently there are several health facilities that use ozone oxygen therapy to fight the coronavirus. From Milan to Brescia, from Vimercate to Parma, passing through Bergamo, Palermo, Naples, Foggia, Teramo, Lecco, Turin, Pavia, Rome".

He cited in particular: the Policlinico San Matteo in Pavia, Humanitas Gavazzeni in Bergamo, the Istituto Clinico Sant'Anna in Brescia, the San Carlo Clinic in Paderno Dugnano and the Hospital of Fidenza (Parma).

"They are also active - he added - some home services for ozone therapy in Pisa, Avellino, Alessandria, Vicenza and Giulianova".

In all these cases, the medical protocols applied are those proposed by the Scientific Society of Ozone Ozone Therapy (SIOOT), which are demonstrating that - when practiced early on patients who tested positive for the virus - ozone therapy is able to effectively counteract the serious effects produced by Covid-19.

"For this reason - concluded Pedrazzini - we hope that this therapeutic path will also be pursued without hesitation".
