

TEXAS RIGHT TO KNOW
More Unites Us Than Divides Us

On January 9, 2023, Congressman Andy Biggs from the 5th District in Arizona submitted House Resolution 79 (The W.H.O. Withdrawal Act).

H.R. 79 would stop all United States (U.S.) funding of the World Health Organization (W.H.O.) and begin the one-year process of the U.S. removing itself from the W.H.O. Amendments were approved by unelected U.S. officials on May 27, 2022. The amendment to Article 59 changed the time frame for approval of amendments from 18 months to 10 months and changed the time for enforcement from 24 months to 12 months. These amendments to the International Health Regulations will be “approved by default” on December 1, 2023, unless rejected by the President.

THIS WILL NOT HAPPEN!

THE U.S. SUBMITTED THIS AMENDMENT WANTING 6 MONTHS BUT SETTLED FOR 10 MONTHS!

There are over 300 amendments being reviewed for the W.H.O. meeting in May of 2024.
